## ## About Me

I'm a Frontend Developer who has always been into the tech world, first I started making some games for fun as a child, then I began learning Python in Platzi, followed by JavaScript applied to frontend and backend. I'm a very passionate Developer who has fun solving competitive challenges while growing my skills.

## ## Experience

### ~ VAIRIX Software Development

*oct 2022 - present*

Working as React developer for Vairix, facing multiple challenges and learning a lot of stuff on the road.
